## SITUATION IN POLAND

SHOWS NO IMPROVEMENT AND STRIKE SPREADS TO A BIG INDUSTRIAL CENTER.

### TROOPS FIRE ON STRIKERS

TWO OF THE LATTER KILLED AND TWO OTHERS WOUNDED IN A CLASH AT LODZ.

There is no improvement discernible in the labor situation in Poland. At Sosnowice, a center of the iron and cotton industries, 40,000 men are on strike, with the accompaniment of street parades and intimidation of those workmen who have not struck. The disturbance at Lodz, where a volley from the soldiers killed two and wounded two, has not been renewed. A railway station near Sosnowice was destroyed and traffic interrupted by strikers. In Warsaw the workmen in forty-two sugar manufactories have struck.

Maxim Gorky will be put on trial on political charges, but whether before a civil or a military court, has not been determined. The assembly of the nobility of the province of Moscow has voted to memorialize the throne for an elective legislative body. Governor General Trepoff regards the situation in St. Petersburg as very satisfactory.

MAXIM GORKY TO BE TRIED.

Author and His Seven Companions Will Stand Trial.

St. Petersburg, Feb. 4.—It is the intention of the government to bring Maxim Gorky and seven other authors and publicists to trial on political charges. Governor General Trepoff Friday said to a correspondent:

"The whole case is now in the hands of the ministry of justice, which is conducting the investigation, at the conclusion of which the procurator general will decide whether the prisoners shall be tried by a civil or a military court. The story spread broadcast that I have ordered Gorky to be court-martialed and shot is a baseless fabrication, invented by persons who are grossly ignorant of Russia, or else they would know that it is impossible for a representative of the Russian administration to order any prisoner to be executed or even to decide the form of trial. Yet, I am in receipt of letters daily from abroad imploring me to spare Gorky's life. I repeat that I am in no wise concerned in this matter; I even do not know whether the procurator general may decide to provisionally release Gorky, as he did in the case of Hessen, Miakotin and Kareleff. I cannot, of course, reveal the exact terms of the accusation against the prisoner; but you may emphatically contradict the version of the discovery of documents implicating eight men who were to have comprised a provisional government."

Regarding the present aspect of affairs, the governor general said: "We have every reason to feel satisfied. Masters and men are now on excellent terms, and work is proceeding everywhere quietly. The reception of the workmen's deputation by the emperor has created the best impression. As to insinuations that the workmen who were received at Tsarskoe Selo were not representative, you may say their selection was not influenced in any way by the government. The selection of the men had to be made within a day. I summoned the principal manufacturers and asked them to choose their most trustworthy and influential men, and this was done."

CZAR RECEIVES WORKMEN.

Employees of Printing Works Call on Russian Ruler.

London, Feb. 4.—A news agency dispatch from St. Petersburg says Emperor Nicholas Friday received at Tsarskoe Selo a deputation of five workmen from the Star printing works. He questioned each man closely regarding the character of work and hours of employment, expressed satisfaction with those who had conscientiously performed their duty and said he hoped to visit the establishment in person.

In dismissing the delegation the czar asked them to convey thanks in his name to their comrades who had done good work in the service of the state. He expressed satisfaction with the bearing of the delegates.

At the conclusion of the interview the delegates were given permission to visit the palace buildings and afterwards were entertained at dinner.

SUGAR FACTORY HANDS QUIT.

Workmen in Forty-two Institutions Go on Strike.

Warsaw, Feb. 4.—The workmen in all the sugar factories of Poland, which number forty-two, struck Fri-

day. These factories hitherto have been working day and night to supply the troops in Manchuria. The employees of the iron works at Sosnowice struck Friday.

Later reports from Lodz say the disturbances there ended quickly. The military fired one volley, killing two and wounding two and the rioters immediately fled. The town is now completely quiet. The authorities have taken extraordinary precautions to maintain order.

FORTY THOUSAND MEN OUT.

Workmen at Sosnowice Strike and Wreck a Railroad Station.

Sosnowice, Feb. 4.—About 40,000 men are now out on strike.

At a meeting of strikers Friday the men forcibly dragged officials belonging to the management of various concerns to the place of meeting. All the speakers insisted on the preservation of public order. The men's demands include a minimum wage of 75 cents a day, eight hours to constitute a day's work; various reforms in factory management and old age pensions. After the meeting 12,000 strikers marched six miles to the Dombrova district in perfect order but everywhere persuading workmen to strike.

Friday the strikers went to the railway station of Streshemeschitz, seized and bound the officials, wrecked the station building and stopped trains in both directions.

There is a report from Radogoszes that a mob there killed one officer and two soldiers.

A general strike commenced Friday morning at Pabianica.

BLOODY ENCOUNTER AT LODZ.

Troops Fire on Strikers and Cause Great Havoc.

Berlin, Feb. 4.—The Lokal Anzeiger's Warsaw correspondent reports that at Lodz there was a bloody encounter Friday, the military firing on strikers and causing great havoc. In the fight several days ago the correspondent says 16 strikers were killed and 58 wounded, of whom 38 were severely injured.

JUDGE SWAYNE MAKES REPLY.

Florida Jurist Files Answer to Articles of Impeachment.

Washington, Feb. 4.—Through his counsel, Judge Swayne Friday made formal response in the senate to the articles of impeachment made by the house of representatives. The answer was a formidable document in point of size. Each of the twelve articles of impeachment was answered at length. In every case the fact charged was admitted, but explained from Judge Swayne's point of view, and in addition it was contended that even if the conditions were true as charged they were not of a character to justify proceedings for impeachment for "high crimes and misdemeanors."

The answer was read by Ex-Senator Thurston and when he concluded the senate issued an order requiring the house to file its formal reply by next Monday and directed that all pleadings shall be in by Feb. 9, so that the trial may proceed on Feb. 10.

MEASURE PASSES THE HOUSE.

Postoffice Appropriation Bill Goes Through After Long Discussion.

Washington, Feb. 4.—After nearly a week of discussion on the postoffice appropriation bill, carrying \$180,787,415, passed the house Friday, following the defeat of a motion by Mr. Moon of Tennessee to recommit it with instructions to strike out the provision of the special mail facilities on trunk lines. Propositions by Mr. Watson of Indiana, to exclude the civil service rules from rural carriers and by Mr. Griggs of Georgia, for the dismissal of postal employees belonging to any association or organization having for its object the increasing of salaries, excited sharp debate but were ruled out on point of order. An early adjournment was taken to permit the use of the house chamber for a Republican caucus regarding railway rate legislation.

ON INTERSTATE COMMERCE LAW.

A. B. Stickney of St. Paul Delivers an Address in Washington.

Washington, Feb. 4.—A. B. Stickney of St. Paul, the president of the Chicago Great Western railway, delivered an address Friday night on the subject of "The Defects of the Interstate Commerce Law" before the regular monthly meeting of the Washington Economic society. Mr. Stickney pointed out in considerable detail what he regarded as the defects in the law and was listened to with close attention by an audience identified with economic interests. Brief remarks were also made by Senator Nelson and by Chairman Knapp of the interstate commerce commission.

Engineer Shot and Killed.

Boston, Feb. 4.—George S. Sargent, a stationary engineer, was shot and killed in a lodging house Friday night. His wife, from whom he separated eight years ago and who was with him at the time, is under arrest pending an autopsy. The woman told the police that her husband committed suicide.

## RUSSIANS ARE ACTIVE

CONSTANT SKIRMISHING ALONG THE FRONT OF BOTH ARMIES IN MANCHURIA.

WOUNDED JAPS MUTILATED

SLAVS ARE AGAIN ACCUSED OF BRUTAL VIOLATIONS OF THE RULES OF WAR.

Tokio, Feb. 4.—Manchurian headquarters, telegraphing Feb. 2, says that on that date the Russians resumed their activity in front of the Japanese left and that there has been constant skirmishing along the fronts of both the opposing forces, exchanges of heavy artillery fire taking place. The Japanese again charge the Russians with the mutilation of their wounded.

Portions of the report follow: "On Wednesday, Feb. 1, in the morning small bodies of the enemy attacked us in all directions. Our outposts repulsed them. On Thursday Feb. 2 from 6 o'clock in the morning, Russian artillery on the west front of Ta mountain and Lieuchentung, shelled Fangshen and Putsaowo and their vicinities. The enemy's infantry immediately surrounded Fangshen, but we repulsed them.

"In the direction of the center on Thursday, the enemy's artillery, situated about a mile and a quarter north of the village of Shakhe and on Wenapo mountain, bombarded the southern heights of Shakhe village.

Scouts in Constant Collision.

"Constant collisions between scouts took place to the north of Chenglingtsu and Yaotun. In the direction of the left on Thursday morning, the enemy's artillery fiercely bombarded Chenglingtsu. Our artillery replied. "According to a reliable report the enemy has built a railroad from Suchiatun, which is five miles north of Lamuting, to Suhupao and has opened traffic thereon.

"At 8 o'clock Thursday morning the enemy's field and heavy guns concentrated a fire against Yatzupao, twenty miles northeast of Chenglingtsu. Subsequently a Russian division entered the village of Chantun and dispatched a brigade to attack us. We repulsed the brigade.

"According to a reliable report, our picket, consisting of an officer and twenty-eight men, was surrounded near Huanglashedun, Jan. 26. Our picket resisted to the last when most of the wounded surrendered. The enemy mutilated all our wounded."

JAPS DEFEAT RUSSIANS.

Oku's Warriors Put to Flight a Detachment of Slavs.

General Oku's Headquarters, Feb. 4, via Fusan.—The Russian forces opposite the Japanese left wing are showing some activity.

A Russian detachment attacked Pedowal (Helkoutai) but was driven back, leaving 160 dead.

A bombardment of the entire left wing continues.

Considerable activity was manifested Feb. 2 opposite Shengtan and Letaiyetun, and it is believed the Russians are preparing for another attack. They fired occasionally salvos of artillery and volleys of musketry.

The Japanese remain in their trenches and do not answer the Russian fire.

MYLOFF SUCCEEDS GRIPENBERG.

Latter Retires From Command on Account of Ill Health.

St. Petersburg, Feb. 4.—It is believed in military circles here that the succession of Lieutenant General Myloff to the command of the Second army of Manchuria does not necessarily mean that the position of second in command in the far East has devolved upon him. General Myloff, who is sixty-two years old, has a good record as a fighter. He was appointed to the command of the Eighth corps in 1901 and went to Manchuria with that corps from Odessa.

Army officers here confirm the report that General Gripenberg is in ill health and point out that he was seriously ill before his appointment to the command of the Second army of Manchuria.

CHASED AND TREED BY WOLVES.

Wisconsin Man Badly Frozen as Result of His Experience.

La Crosse, Wis., Feb. 4.—Pursued and treed for eight hours by a pack of timber wolves with the temperature 20 degrees below zero, was the experience of Hans Peterson, a farmer of Coon Valley. He was found by rescuers wedged in the tree branches unconscious. Both hands and both feet and his face were frozen. His feet and fingers will probably have to be amputated.

DETAINED ON SUSPICION.

George H. Wood Held in Connection With Murder of George Williams.

New York, Feb. 4.—George H. Wood, an ironworker, surrendered himself to the police Friday night. He was taken to police headquarters, where he is held on suspicion in connection with the murder of George Williams, a young grocer of Wachung, near Plainfield, N. J.

Business Man Suicides.

Chicago, Feb. 4.—John B. Sculley, secretary of the Sculley Steel and Iron works, and a successful business man, committed suicide Friday in a deserted part of Humboldt Park, by shooting himself through the head. Fatigue from attending his sick wife caused temporary insanity.

Soldier Killed by a Train.

Minneapolis, Feb. 4.—Marion Robinson, a private in Company G of the Twenty-eighth Infantry, stationed at Fort Snelling, was run down and killed Thursday night or early Friday morning by a Milwaukee train near this city. The remains were badly mangled.

## RUSSIANS ARE ACTIVE

CONSTANT SKIRMISHING ALONG THE FRONT OF BOTH ARMIES IN MANCHURIA.

WOUNDED JAPS MUTILATED

SLAVS ARE AGAIN ACCUSED OF BRUTAL VIOLATIONS OF THE RULES OF WAR.

Tokio, Feb. 4.—Manchurian headquarters, telegraphing Feb. 2, says that on that date the Russians resumed their activity in front of the Japanese left and that there has been constant skirmishing along the fronts of both the opposing forces, exchanges of heavy artillery fire taking place. The Japanese again charge the Russians with the mutilation of their wounded.

Portions of the report follow:

"On Wednesday, Feb. 1, in the morning small bodies of the enemy attacked us in all directions. Our outposts repulsed them. On Thursday Feb. 2 from 6 o'clock in the morning, Russian artillery on the west front of Ta mountain and Lieuchentung, shelled Fangshen and Putsaow and their vicinity. The enemy's infantry immediately surrounded Fangshen, but we repulsed them.

"In the direction of the center on Thursday, the enemy's artillery, situated about a mile and a quarter north of the village of Shakhe and on Wena-po mountain, bombarded the southern heights of Shakhe village.

Scouts in Constant Collision.

"Constant collisions between scouts took place to the north of Chenglingtsu and Yaotun. In the direction of the left on Thursday morning, the enemy's artillery fiercely bombarded Chenghiepao. Our artillery replied.

"According to a reliable report the enemy has built a railroad from Suchiatun, which is five miles north of Lamuting, to Suhupao and has opened traffic thereon.

"At 8 o'clock Thursday morning the enemy's field and heavy guns concentrated a fire against Yatzupao, twenty miles northeast of Chenghiepao. Subsequently a Russian division entered the village of Chantun and dispatched a brigade to attack us. We repulsed the brigade.

"According to a reliable report, our picket, consisting of an officer and twenty-eight men, was surrounded near Huangshatzun, Jan. 26. Our picket resisted to the last when most of the wounded surrendered. The enemy mutilated all our wounded."

JAPS DEFEAT RUSSIANS.

Oku's Warriors Put to Flight a Detachment of Slavs.

General Oku's Headquarters, Feb. 4, via Fusan.—The Russian forces opposite the Japanese left wing are showing some activity.

Ing some activity.

A Russian detachment attacked Pedowtal (Heikoutai) but was driven back, leaving 160 dead.

A bombardment of the entire left wing continues.

Considerable activity was manifested Feb. 2 opposite Shengtan and Letaiyetun, and it is believed the Russians are preparing for another attack. They fired occasionally salvos of artillery and volleys of musketry.

The Japanese remain in their trenches and do not answer the Russian fire.

MYLOFF SUCCEEDS GRIPENBERG.

Latter Retires From Command on Account of Ill Health.

St. Petersburg, Feb. 4.—It is believed in military circles here that the succession of Lieutenant General Myloff to the command of the Second army of Manchuria does not necessarily mean that the position of second in command in the far East has devolved upon him. General Myloff, who is sixty-two years old, has a good record as a fighter. He was appointed to the command of the Eighth corps in 1901 and went to Manchuria with that corps from Odessa.

Army officers here confirm the report that General Gripenberg is in ill health and point out that he was seriously ill before his appointment to the command of the Second army of Manchuria.

CHASED AND TREED BY WOLVES.

Wisconsin Man Badly Frozen as Result of His Experience.

La Crosse, Wis., Feb. 4.—Pursued and treed for eight hours by a pack of timber wolves with the temperature 20 degrees below zero, was the experience of Hans Peterson, a farmer of Coon Valley. He was found by rescuers wedged in the tree branches unconscious. Both hands and both feet and his face were frozen. His feet and fingers will probably have to be amputated.

DETAINED ON SUSPICION.

George H. Wood Held in Connection With Murder of George Williams.

New York, Feb. 4.—George H. Wood, an ironworker, surrendered himself to a police Friday night. He was taken to police headquarters, where he is held on suspicion in connection with the murder of George Williams, a young grocer of Wachung, near Plainfield, N. J.

Business Man Suicides.

Chicago, Feb. 4.—John B. Sculley, secretary of the Sculley Steel and Iron works, and a successful business man, committed suicide Friday in a deserted part of Humboldt Park, by shooting himself through the head. Fatigue from attending his sick wife caused temporary insanity.

Soldier Killed by a Train.

Minneapolis, Feb. 4.—Marion Robinson, a private in Company G of the Twenty-eighth infantry, stationed at Fort Snelling, was run down and killed Thursday night or early Friday morning by a Milwaukee train near this city. The remains were badly mangled.

## SITUATION IN POLAND

SHOWS NO IMPROVEMENT AND STRIKE SPREADS TO A BIG INDUSTRIAL CENTER.

TROOPS FIRE ON STRIKERS

TWO OF THE LATTER KILLED AND TWO OTHERS WOUNDED IN A CLASH AT LODZ.

There is no improvement discernible in the labor situation in Poland. At Sosnowice, a center of the iron and cotton industries, 40,000 men are on strike, with the accompaniment of street parades and intimidation of those workmen who have not struck. The disturbance at Lodz, where a volley from the soldiers killed two and wounded two, has not been renewed. A railway station near Sosnowice was destroyed and traffic interrupted by strikers. In Warsaw the workmen in forty-two sugar manufactories have struck.

Maxim Gorky will be put on trial on political charges, but whether before a civil or a military court, has not been determined. The assembly of the nobility of the province of Moscow has voted to memorialize the throne for an elective legislative body. Governor General Trepoff regards the situation in St. Petersburg as very satisfactory.

MAXIM GORKY TO BE TRIED.

Author and His Seven Companions Will Stand Trial.

St. Petersburg, Feb. 4.—It is the intention of the government to bring Maxim Gorky and seven other authors and publicists to trial on political charges. Governor General Trepoff Friday said to a correspondent:

"The whole case is now in the hands of the ministry of justice, which is conducting the investigation, at the conclusion of which the procurator general will decide whether the prisoners shall be tried by a civil or a military court. The story spread broadcast that I have ordered Gorky to be court-martialed and shot is a baseless fabrication, invented by persons who are grossly ignorant of Russia, or else they would know that it is impossible for a representative of the Russian administration to order any prisoner to be executed or even to decide the form of trial. Yet, I am in receipt of letters daily from abroad imploring me to spare Gorky's life. I repeat that I am in nowise concerned in this matter; I even do not know whether the procurator general may decide to provisionally release Gorky, as he did in the case of Hessen, Mikotin and Kareloff. I cannot, of course, reveal the exact terms of the accusation against the prisoner; but you may emphatically contradict the version of the discovery of documents implicating eight men who were to have comprised a provisional government."

Regarding the present aspect of affairs, the governor general said:

"We have every reason to feel satisfied. Masters and men are now on excellent terms, and work is proceeding everywhere quietly. The reception of the workmen's deputation by the emperor has created the best impression. As to insinuations that the workmen who were received at Tsarskoe Selo were not representative, you may say their selection was not influenced in any way by the government. The selection of the men had to be made within a day. I summoned the principal manufacturers and asked them to choose their most trustworthy and influential men, and this was done."

CZAR RECEIVES WORKMEN.

Employees of Printing Works Call on Russian Ruler.

London, Feb. 4.—A news agency dispatch from St. Petersburg says Emperor Nicholas Friday received at Tsarskoe Selo a deputation of five workmen from the Star printing works. He questioned each man closely regarding the character of work and hours of employment, expressed satisfaction with those who had conscientiously performed their duty and said he hoped to visit the establishment in person.

In dismissing the delegation the czar asked them to convey thanks in his name to their comrades who had done good work in the service of the state. He expressed satisfaction with the bearing of the delegates.

At the conclusion of the interview the delegates were given permission to visit the palace buildings and afterwards were entertained at dinner.

SUGAR FACTORY HANDS QUIT.

Workmen in Forty-two Institutions Go on Strike.

Warsaw, Feb. 4.—The workmen in all the sugar factories of Poland, which number forty-two, struck Fri-

day. These factories hitherto have been working day and night to supply the troops in Manchuria. The employees of the iron works at Sosnowice struck Friday.

Later reports from Lodz say the disturbances there ended quickly. The military fired one volley, killing two and wounding two and the rioters immediately fled. The town is now completely quiet. The authorities have taken extraordinary precautions to maintain order.

FORTY THOUSAND MEN OUT.

Workmen at Sosnowice Strike and Wreck a Railroad Station.

Sosnowice, Feb. 4.—About 40,000 men are now out on strike.

At a meeting of strikers Friday the men forcibly dragged officials belonging to the management of various concerns to the place of meeting. All the speakers insisted on the preservation of public order. The men's demands include a minimum wage of 75 cents a day, eight hours to constitute a day's work; various reforms in factory management and old age pensions. After the meeting 12,000 strikers marched six miles to the Dombrova district in perfect order but everywhere persuading workmen to strike.

Friday the strikers went to the railway station at Streshemeschitz, seized and bound the officials, wrecked the station building and stopped trains in both directions.

There is a report from Radogoszes that a mob there killed one officer and two soldiers.

A general strike commenced Friday morning at Pabianica.

BLOODY ENCOUNTER AT LODZ.

Troops Fire on Strikers and Cause Great Havoc.

Berlin, Feb. 4.—The Lokal Anzeiger's Warsaw correspondent reports that at Lodz there was a bloody encounter Friday, the military firing on strikers and causing great havoc. In the fight several days ago the correspondent says 16 strikers were killed and 58 wounded, of whom 38 were severely injured.

JUDGE SWAYNE MAKES REPLY.

Florida Jurist Files Answer to Articles of Impeachment.

Washington, Feb. 4.—Through his counsel, Judge Swayne Friday made formal response in the senate to the articles of impeachment made by the house of representatives. The answer was a formidable document in point of size. Each of the twelve articles of impeachment was answered at length. In every case the fact charged was admitted, but explained from Judge Swayne's point of view, and in addition it was contended that even if the conditions were true as charged they were not of a character to justify proceedings for impeachment for "high crimes and misdemeanors."

The answer was read by Ex-Senator Thurston and when he concluded the senate issued an order requiring the house to file its formal reply by next Monday and directed that all pleadings shall be in by Feb. 9, so that the trial may proceed on Feb. 10.

MEASURE PASSES THE HOUSE.

Postoffice Appropriation Bill Goes Through After Long Discussion.

Washington, Feb. 4.—After nearly a week of discussion on the postoffice appropriation bill, carrying \$180,787,415, passed the house Friday, following the defeat of a motion by Mr. Moon of Tennessee to recommit it with instructions to strike out the provision of the special mail facilities on trunk lines. Propositions by Mr. Watson of Indiana, to exclude the civil service rules from rural carriers and by Mr. Griggs of Georgia, for the dismissal of postal employees belonging to any association or organization having for its object the increasing of salaries, excited sharp debate but were ruled out on point of order. An early adjournment was taken to permit the use of the house chamber for a Republican caucus regarding railway rate legislation.

ON INTERSTATE COMMERCE LAW.

A. B. Stickney of St. Paul Delivers an Address in Washington.

Washington, Feb. 4.—A. B. Stickney of St. Paul, the president of the Chicago Great Western railway, delivered an address Friday night on the subject of "The Defects of the Interstate Commerce Law" before the regular monthly meeting of the Washington Economic society. Mr. Stickney pointed out in considerable detail what he regarded as the defects in the law and was listened to with close attention by an audience identified with economic interests. Brief remarks were also made by Senator Nelson and by Chairman Knapp of the interstate commerce commission.

Engineer Shot and Killed.

Boston, Feb. 4.—George S. Sargent, a stationary engineer, was shot and killed in a lodging house Friday night. His wife, from whom he separated eight years ago and who was with him at the time, is under arrest pending an autopsy. The woman told the police that her husband committed suicide.

A surprise party was given in honor of Miss Lulu Peotke at the home of Mrs. Fred Gruenhagen last evening. Games were played, light refreshments were served and a very pleasant evening was spent.

A letter has been received from Prof. Frank Coleman in which he states that he will be back in Brainerd soon and will be ready to take on Hallett, Luttrell or any other wrestler who is looking for fresh laurels.

The Black Hawks' dance which was to have been given on next Monday evening has been postponed for one week by request of the members of hose company No. 2, who give their annual dance Monday evening.

There is an order posted along the N. P. line instructing all trainmen to present themselves to the nearest surgeon for vaccination. This is done, it is understood, on account of the prevalence of small pox at different points.

The Court of Honor is the youngest fraternal insurance society in the city. In less than one year has tripled its membership in Brainerd. Several deputies are now in the field who will do their best to equal this record in 1905.

Mrs. Fred Brinkman, formerly of this city, proprietress of the Brinkman hotel recently destroyed by fire in Bemidji, has decided to erect a modern three story solid brick hotel building on the site of the former hostelry, says the Pioneer, and she left Friday afternoon for Chicago where she will make arrangements for securing the drawing up of plans and specifications for the new structure.

The pastor of the M. E. church has known Miss Rouse for many years, and is thoroughly acquainted with the missionary and her work. He assures the public that they will not be disappointed in hearing this noble woman tell the story of missionary work and life among

the ancient people. And he adds that additional force has been added to the heating plant of the church so that the audience will be comfortable.

Dr. Walter Courtney, the well known Brainerd surgeon, was in the city this morning on his way home from Park Rapids, where he was called to perform an operation upon Attorney B. F. Wright's nine-year-old daughter for appendicitis. The operation was a success and this morning the child was resting easy. Mr. Wright's Wadena friends hope there will be no serious results. Dr. Courtney, during his stay here, visited with the local physicians.—Wadena Pioneer Journal.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar. H. P. Dunn & Co.

### Oil Inspector's Duties.

The law provides that the state oil inspector and his deputies shall examine and test the quality of all oils offered for sale by any manufacturer, and to approve all oils which enter the state, or are manufactured within the state that meet with the requirements of the law and to reject such as do not meet with the requirements. The law provides that the state oil inspector, or any of his deputies, may enter during business hours, without being requested to do so, any store, shop, warehouse or yard in which he believes oil, untested, or unsafe for use, is kept for sale, and shall approve or reject it, as the requirements of the law indicate. The compensation of all deputy oil inspectors is based on the fee system, but the law provides that no deputy shall receive in fees more than \$1,200 per annum. The salary of the state inspector is \$2,400. The fees for the deputy in this county amount to about \$300 per year.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. H. P. Dunn & Co.

They mix me up, and eat with glee.

Comforts the heart, strengthens the mind. Is good ill or well. Makes the face bright as the summer morn. That's what Hollister's Rocky Mountain Tea will do. Cures when all else fails. 35 cents. H. P. Dunn & Co.

Happiness and misery are two extremes, the utmost bounds whereof we know not.—Locke.

When you feel a sense of weight and oppression after meals it means indigestion. Hollister's Rocky Mountain Tea positively cures indigestion, constipation and stomach troubles. 35 cents, tea or tablets. H. P. Dunn & Co.

### Overcomes a Difficulty.

A Washington correspondent in Stories of the Statesmen has the following regarding the congressman from this district:

"Not being the chairman of a committee, Congressman Buckman of Minnesota, like other new congressmen, had no committee room to use for an office. But he has overcome the difficulty. One day he went on an exploring expedition in the capitol building, and after fixing a few janitors and getting the friendly aid of the librarian, he is now comfortably established under the big historic dome. To reach Buckman's committee room it is necessary to go as high as the elevators run; then penetrate the reference library, and emerge at the far side; follow a dark corridor, climb a winding stairway, turn to the left, then to the right, go through a lumber-room and into another one—and you are there! Buckman says it's a very convenient place to work."

Foley's Honey and Tar cures the cough caused by attack of la grippe. It heals the lungs. H. P. Dunn & Co.

### Heavy Loss by Fire.

Wilkesbarre, Pa., Feb. 4.—Fire which started late Friday night in the city of Shamokin, in the stocking factory of Pauber & Co., destroyed that building, Aucher's planing mill and lumber yards, four dwellings and some other properties. Loss, \$175,000.

### Valuable Residence Destroyed.

New York, Feb. 4.—Fire Friday night entirely destroyed Cedar Court, the country home of Otto H. Kuhn, senior member of the banking firm of Kuhn, Loeb & Co., of this city, situated near Morristown, N. J., entailing a loss of about \$400,000.

The most reliable preparation for kidney troubles on the market is Foley's Kidney Cure. H. P. Dunn & Co.

### NORWAY MAY BE INDEPENDENT.

Long Union With Sweden May Be Dissolved.

Stockholm, Feb. 4.—All negotiations looking to a system of separate consuls in Norway have been broken off. This is important in view of the pending agitation to dissolve the union between Sweden and Norway. It is declared that this means an early end of the 100-year union between the two countries and the absolute independence of Norway. Whether this dissolution will come peaceably depends upon the view taken by King Oscar, Crown Prince Gustaf and the ministers here in Stockholm. The crown prince is said to be for holding Norway to the union at all costs. The Norwegians charge that Premier Bostrom has violated the consular service agreement of March, 1903. The premier lately imposed new conditions in regard to the proposed separate service, which the Norwegians declare made further negotiations useless.

### REVOLUTION IN ALBANIA.

Bitter Struggle for Liberty Will Be Waged by Prince Glica.

Rome, Feb. 4.—Prince Glica of Roumania, who has been elected by the Albanian committees "supreme head for Albanian independence," was interviewed here Friday regarding his plans and purposes of the committees. The prince said his election meant the inauguration of a general revolution in Albania and a bitter struggle to achieve the liberty of that country. He said he would in person assume command of the Albanian forces, which, he asserted, will be reinforced by 12,000 European volunteers.

### ONE KILLED AND FOUR INJURED.

Fatal Fire Occurs in a Home for Women.

Buffalo, Feb. 4.—Fire Friday night destroyed a part of the Ingleside home for women. In a panic among the fifty inmates of the place one woman was killed and four were seriously hurt.

Mrs. Mary Kytile, fifty years old, was suffocated.

The injured are Mrs. Betsy Caldwell, eighty-four years old; Mrs. Mary A. Grisebecher, fifty years; Miss Nora Ingelhart, sixty years, and Mrs. Marion Orion.

### INDEXING BOOKS.

The Custom Is an Old One That Developed Rather Slowly.

The custom of indexing books developed gradually. Cicero used the word "index," but in the sense of a table of contents. Seneca provided some works which he sent to a friend with notes of particular passages, "so that he who only aimed at the useful might be spared the trouble of examining them entire." This was at least a partial "index" in the modern sense. Annotated, or at least explanatory, tables of contents seem to have preceded the index proper.

Such tables followed the order of appearance of the subjects in the book itself. Alphabetical arrangement, which was the beginning of the real index, appears not to have been thought of until the invention of printing, and even then it spread but slowly. Erasmus was one of the first to provide his works with alphabetical indexes. The custom did not become universal until well into the sixteenth century.

The first index to an English book is said to be that printed in Polydore Vergil's "Angliae Historiae" in 1546. An edition of this work published ten years later has an index of thirty-seven pages.

### The Hungarian Crown.

The Hungarian crown worn at their accession by the emperors of Austria as kings of Hungary is the identical one made for Stephen and used at his coronation over 800 years ago. The whole is of pure gold, except the settings, and weighs nine marks six ounces, almost exactly fourteen pounds. The settings above alluded to consist of 53 sapphires, 50 rubies, 1 emerald and 338 pearls. It will be noticed that there are no diamonds among these precious adornments. This is accounted for by the oft quoted story of Stephen's aversion to such gems because he considered them "unlucky."

### Insanity, Death or Health?

No. 2807 Locust Street, ST. LOUIS, MO., March 29, 1903.

I was a victim of sleeplessness and extreme nervousness for eighteen months, unable to get a proper night's rest and feeling tired and worn out continually. I was easily irritated and hysterical at the slightest provocation, but Wine of Cardui gave me great relief. Within a week after I began using it I had my first real good night's rest that I had had for months. My appetite was soon restored, my general system toned up and nervousness became a thing of the past.

I am so pleased to acknowledge the great curative merit of your health giving medicine and gladly endorse it.

*Harriet O. Best*  
CHAPLAIN, LADIES OF HONOR, No. 97.

## WINE of CARDUI

We want to call your attention to the complete and immediate relief Mrs. Best secured by taking Wine of Cardui. Within a week after she began taking Wine of Cardui, Mrs. Best had her first good night's rest for eighteen months. Her restlessness was caused by nervousness and Wine of Cardui, as the best menstrual regulator, has no superior in the world as a medicine to soothe a woman's nerves. Nervousness and hysteria are warnings of the approach of insanity and if relief is not secured the end can only be the asylum or the grave. With such an outlook as this before her, no suffering woman can reasonably refuse to give Wine of Cardui a trial. It brings a cure that thousands of women have sought for in vain. Will you secure a bottle of Wine of Cardui today and start treatment? All druggists sell \$1.00 bottles Wine of Cardui.

The Court of Honor is the youngest fraternal insurance society in the city. In less than one year has tripled its membership in Brainerd. Several deputies are now in the field who will do their best to equal this record in 1905.

Mrs. Fred Brinkman, formerly of this city, proprietress of the Brinkman hotel recently destroyed by fire in Bemidji, has decided to erect a modern three story solid brick hotel building on the site of the former hostelry, says the Pioneer, and she left Friday afternoon for Chicago where she will make arrangements for securing the drawing up of plans and specifications for the new structure.

The pastor of the M. E. church has known Miss Rouse for many years, and is thoroughly acquainted with the missionary and her work. He assures the public that they will not be disappointed in hearing this noble woman tell the story of missionary work and life among

the ancient people. And he adds that additional force has been added to the heating plant of the church so that the audience will be comfortable.

Dr. Walter Courtney, the well known Brainerd surgeon, was in the city this morning on his way home from Park Rapids, where he was called to perform an operation upon Attorney B. F. Wright's nine-year-old daughter for appendicitis. The operation was a success and this morning the child was resting easy. Mr. Wright's Wadena friends hope there will be no serious results. Dr. Courtney, during his stay here, visited with the local physicians.—Wadena Pioneer Journal.

### Oil Inspector's Duties.

The law provides that the state oil inspector and his deputies shall examine and test the quality of all oils offered for sale by any manufacturer, and to approve all oils which enter the state, or are manufactured within the state that meet with the requirements of the law and to reject such as do not meet with the requirements. The law provides that the state oil inspector, or any of his deputies, may enter during business hours, without being requested to do so, any store, shop, warehouse or yard in which he believes oil, untested, or unsafe for use, is kept for sale, and shall approve or reject it, as the requirements of the law indicate. The compensation of all deputy oil inspectors is based on the fee system, but the law provides that no deputy shall receive in fees more than \$1,200 per annum. The salary of the state inspector is \$2,400. The fees for the deputy in this county amount to about \$300 per year.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. H. P. Dunn & Co.

### Overcomes a Difficulty.

A Washington correspondent in Stories of the Statesmen has the following regarding the congressman from this district:

"Not being the chairman of a committee, Congressman Buckman of Minnesota, like other new congressmen, had no committee room to use for an office. But he has overcome the difficulty. One day he went on an exploring expedition in the capitol building, and after 'fixing' a few janitors and getting the friendly aid of the librarian, he is now comfortably established under the big historic dome. To reach Buckman's committee room it is necessary to go as high as the elevators run; then penetrate the reference library, and emerge at the far side; follow a dark corridor, climb a winding stairway, turn to the left, then to the right, go through a lumber room and into another one—and you are there! Buckman says it's a very convenient place to work."

Foley's Honey and Tar cures the cough caused by attack of la grippe. It heals the lungs. H. P. Dunn & Co.

### Heavy Loss by Fire.

Wilkesbarre, Pa., Feb. 4.—Fire which started late Friday night in the city of Shamokin, in the stocking factory of Pauber & Co., destroyed that building, Aucher's planing mill and lumber yards, four dwellings and some other properties. Loss, \$175,000.

### Valuable Residence Destroyed.

New York, Feb. 4.—Fire Friday night entirely destroyed Cedar Court, the country home of Otto H. Kuhn, senior member of the banking firm of Kuhn, Loeb & Co., of this city, situated near Morristown, N. J., entailing a loss of about \$400,000.

### NORWAY MAY BE INDEPENDENT.

Long Union With Sweden May Be Dissolved.

Stockholm, Feb. 4.—All negotiations looking to a system of separate consuls in Norway have been broken off. This is important in view of the pending agitation to dissolve the union between Sweden and Norway. It is declared that this means an early end of the 100-year union between the two countries and the absolute independence of Norway. Whether this dissolution will come peaceably depends upon the view taken by King Oscar, Crown Prince Gustaf and the ministers here in Stockholm. The crown prince is said to be for holding Norway to the union at all costs. The Norwegians charge that Premier Bostrom has violated the consular service agreement of March, 1903. The premier lately imposed new conditions in regard to the proposed separate service, which the Norwegians declare made further negotiations useless.

### REVOLUTION IN ALBANIA.

Bitter Struggle for Liberty Will Be Waged by Prince Ghica.

Rome, Feb. 4.—Prince Ghica of Roumania, who has been elected by the Albanian committees "supreme head for Albanian independence," was interviewed here Friday regarding his plans and purposes of the committees. The prince said his election meant the inauguration of a general revolution in Albania and a bitter struggle to achieve the liberty of that country. He said he would in person assume command of the Albanian forces, which, he asserted, will be reinforced by 12,000 European volunteers.

### ONE KILLED AND FOUR INJURED.

Fatal Fire Occurs in a Home for Women.

Buffalo, Feb. 4.—Fire Friday night destroyed a part of the Ingleside home for women. In a panic among the fifty inmates of the place one woman was killed and four were seriously hurt.

Mrs. Mary Kyttille, fifty years old, was suffocated.

The injured are Mrs. Betsy Caldwell, eighty-four years old; Mrs. Mary A. Grisbecher, fifty years; Miss Nora Inglehart, sixty years, and Mrs. Marion Orion.

### INDEXING BOOKS.

The Custom Is an Old One That Developed Rather Slowly.

The custom of indexing books developed gradually. Cicero used the word "index," but in the sense of a table of contents. Seneca provided some works which he sent to a friend with notes of particular passages, "so that he who only aimed at the useful might be spared the trouble of examining them entire." This was at least a partial "index" in the modern sense. Annotated, or at least explanatory, tables of contents seem to have preceded the index proper.

Such tables followed the order of appearance of the subjects in the book itself. Alphabetical arrangement, which was the beginning of the real index, appears not to have been thought of until the invention of printing, and even then it spread but slowly. Erasmus was one of the first to provide his works with alphabetical indexes. The custom did not become universal until well into the sixteenth century.

The first index to an English book is said to be that printed in Polydore Vergil's "Angliae Historiae," in 1546. An edition of this work published ten years later has an index of thirty-seven pages.

### The Hungarian Crown.

The Hungarian crown worn at their accession by the emperors of Austria as kings of Hungary is the identical one made for Stephen and used at his coronation over 800 years ago. The whole is of pure gold, except the settings, and weighs nine marks six ounces, almost exactly fourteen pounds. The settings above alluded to consist of 53 sapphires, 50 rubies, 1 emerald and 338 pearls. It will be noticed that there are no diamonds among these precious adornments. This is accounted for by the oft quoted story of Stephen's aversion to such gems because he considered them "unlucky."

# Insanity, Death or Health?

No. 2807 Locust Street, St. Louis, Mo., March 29, 1908.

I was a victim of sleeplessness and extreme nervousness for eighteen months, unable to get a proper night's rest and feeling tired and worn out continually. I was easily irritated and hysterical at the slightest provocation, but Wine of Cardui gave me great relief. Within a week after I began using it I had my first real good night's rest that I had had for months. My appetite was soon restored, my general system toned up and nervousness became a thing of the past.

I am so pleased to acknowledge the great curative merit of your health giving medicine and gladly endorse it.

## WINE of CARDUI

We want to call your attention to the complete and immediate relief Mrs. Best secured by taking Wine of Cardui. Within a week after she began taking Wine of Cardui, Mrs. Best had her first good night's rest for eighteen months. Her restlessness was caused by nervousness and Wine of Cardui, as the best menstrual regulator, has no superior in the world as a medicine to soothe a woman's nerves. Nervousness and hysteria are warnings of the approach of insanity and if relief is not secured the end can only be the asylum or the grave. With such an outlook as this before her, no suffering woman can reasonably refuse to give Wine of Cardui a trial. It brings a cure that thousands of women have sought for in vain. Will you secure a bottle of Wine of Cardui today and start treatment?

## Insanity, Death or Health?

No. 2807 Locust Street, St. Louis, Mo., March 29, 1903.

I was a victim of sleeplessness and extreme nervousness for eighteen months, unable to get a proper night's rest and feeling tired and worn out continually. I was easily irritated and hysterical at the slightest provocation, but Wine of Cardui gave me great relief. Within a week after I began using it I had my first real good night's rest that I had had for months. My appetite was soon restored, my general system toned up and nervousness became a thing of the past. I am so pleased to acknowledge the great curative merit of your health giving medicine and gladly endorse it.

## WINE of CARDUI

We want to call your attention to the complete and immediate relief Mrs. Best secured by taking Wine of Cardui. Within a week after she began taking Wine of Cardui, Mrs. Best had her first good night's rest for eighteen months. Her restlessness was caused by nervousness and Wine of Cardui, as the best menstrual regulator, has no superior in the world as a medicine to soothe a woman's nerves. Nervousness and hysteria are warnings of the approach of insanity and if relief is not secured the end can only be the asylum or the grave. With such an outlook as this before her, no suffering woman can reasonably refuse to give Wine of Cardui a trial. It brings a cure that thousands of women have sought for in vain. # PROGRESSIVE SPIRIT OF THE BUSINESS MEN

## A Commercial Club Successfully Launched at Meeting Held Last Night

### SEVENTY-FIVE JOIN FIRST NIGHT

### Sixteen Directors Are Elected and the Club Starts Off in a Flour- ishing Manner.

Never in the history of Brainerd has a more representative body of business and professional men gathered together than last night when something like 100 or 150 met in Arcade hall in the Columbian block to perfect the organization of a commercial club. Not only was the number of men who were present an indication that those who have the commercial and industrial interests of the city at heart are awakened with new aspirations and are willing to combine their efforts for the best good of the city, but the very flattering thing about the meeting was the fact that the keynote of success was harmony, and there seemed to be an expression from every corner which had the right ring; a unanimity of purpose, to advance the interests of Brainerd, was the sentiment and there is a feeling that it cannot but help result in all kinds of good for the city and the country.

A club was organized and was successfully launched and it will be known as "The Commercial Club of Brainerd." The new club is organized under and by virtue of Chapter 34, of the general statutes of Minnesota, 1894, and its objects are in common with clubs of a similar character in cities throughout the northwest, except that the requirements have been changed to meet the conditions here.

MAYOR O'BRIEN FIRES FIRST GUN.  
It was shortly after 8 o'clock that Mayor Con. O'Brien called the assembly to order and with usual promptness drove at the point in a few brief but concise and plain words. He stated the purpose for which the meeting was called and contended that the objects of a club of this nature were most praiseworthy. He said that the old saw, "Necessity is the mother of invention" is applicable to Brainerd at this time in many ways. He called attention to the fact that the business men should stand by the products which are manufactured right here at home. The flour, for instance, made here is as good as is turned out in St. Cloud, Sauk Centre or any other town, and if the business men here stood by the two mills they would have enough business to compel them to run night and day to supply the demand. Then he called attention to taxation and the utter disregard of the business men to do anything to impede what he thought was a growing evil. Many other matters of importance were touched upon by Mr. O'Brien and he seemed to voice the sentiments of a large majority. He stated that the promoters had named a committee of gentlemen, selected from the best business circles of the city, to formulate or draw up a set of articles of incorporation and by laws and called upon W. D. McKay to read them. Mr. McKay read the articles of incorporation first which set forth the objects of the organization. He stated that the committee in preparing these papers had followed such cities as Minneapolis, St. Paul, Fargo, Winona, Stillwater and Duluth, and had picked out what they thought was best in each one and had made them applicable to Brainerd.

PURPOSE OF THE CLUB.  
The general purpose of the club shall be to encourage and promote the commercial and manufacturing interests of the city of Brainerd; to develop the jobbing and wholesale interests of the city; to encourage manufacturing within the city limits; to promote and maintain the principle of home trade; to advise and assist in municipal and civic improvements, and to foster and encourage through social intercourse a public spirit and feeling of loyalty to the city. Its plan of operation shall be to provide and maintain a suitable place for the meetings of its members, and to furnish therein such means to carry out the general purpose of the corporation as its members may deem suitable and necessary. Its place of location shall be in the city of Brainerd, Crow Wing county, Minnesota.

THE MEMBERSHIP.  
The terms of admission to membership shall be the election by the board of directors, in the manner prescribed by the by-laws, of adult male citizens of the United States who reside in, or whose place of business is in the city of Brainerd, and the payment of a membership fee, the amount of which may be prescribed by the by-laws. The

amount of annual dues to be paid by each member shall be five dollars, to be paid at such time and in such manner as the board of directors shall designate.

THE OFFICERS.  
The government of this corporation shall be vested in a board of sixteen directors, who shall be members of this corporation, and in such officers and committees as said board of directors may appoint and determine.

The officers shall hold office and conduct the affairs of this corporation until their successors shall be elected and qualified at the next succeeding annual meeting of this corporation.

The officers of the corporation shall be a president, vice president, secretary and treasurer, who shall hold office for the term of one year and until their successors are elected and qualified.

their officers in their clubs by first electing a board of directors then Brainerd should follow the example.

T. C. Blewitt thought that the members should consider the effect.

M. J. Reilly was in favor of allowing the directors to elect the officers.

J. M. Elder that it was no time to quibble; that the business men had met to devise means for the betterment of Brainerd and as long as the committee had followed other cities why not get in line. This is no time for experiment.

Finally on motion of J. N. Nevers the articles were adopted as read.

THE MEMBERSHIP FEE.

The by-laws as prepared by the committee provided for a membership fee of \$10. There was considerable discussion on this point also. James Cullen took the floor and took the stand that the \$10 fee was too much. Of course he admitted that he did not know what was to be done with the money etc.

A. T. Larson said that he knew enough of human nature to know that the average man who paid \$10 into such a club for membership would expect to get some individual gain therefrom and he advised lowering the fee.

J. F. McGinnis stated that he did not think that the business men of the city should be thus classed. The business men should get away from the individuality question and work collectively for the good of the city.

M. E. Ryan concurred in what Mr. McGinnis had to say.

T. C. Blewitt believed in getting a right start and thought \$10 was not a mite too much.

H. W. Linneman said that a great deal of work is to be done money is needed. He thought \$10 was all right and suggested a proviso that it be made \$5 later.

A. L. Hoffman wanted to know if they were going to have club rooms.

W. D. McKay stated that the committee considered the matter carefully

taken regarding the taking off of Nos. 5 and 6 and running the trains by the way of Staples. He said that if it was the sense of the club he would name G. D. LaBaron this committee. The appointment was on motion ratified.

A LETTER FROM MR. LUM

A communication was read from Attorney L. E. Lum full of advice to the business men and the best wishes of the gentleman. He believed that the business men should go after what they believed they are entitled to and congratulate them on the move taken to organize the club.

On motion a committee consisting of W. D. McKay, H. I. Cohen and M. E. Ryan was appointed to prepare the articles of incorporation and have them sent to the secretary of the state for recording.

A rising vote of thanks was extended to those who have been prominent in promoting the movement.

A REPRESENTATIVE BODY.

The following well known business men were present and signed the articles:

Con O'Brien, G. D. LaBar, P. B. Nettleton, J. N. Nevers, D. M. Clark, James Cullen, H. I. Cohen, H. W. Linneman, Dr. Walter Courtney, A. M. Opsahl, W. H. Cleary, A. F. Groves, G. E. Gardner, J. M. A Grim Tragedy

is daily enacted in thousands of homes, as Death claims in each one another victim of consumption or pneumonia. But when coughs and colds are properly treated the tragedy is averted. F. G. Monday Night will be Biggest Event  
of any Kind this Year

The annual ball to be given by Hose company No. 2 on Monday night in Gardner hall will eclipse anything of the kind ever attempted in Brainerd. For this occasion the famous Dode Fisk orchestra will furnish the music. Not only will this attach much interest to the dance, but the orchestra will in addition give a grand concert consisting of solos, quartettes and instrumental music, preceding the ball. This orchestra is famed throughout the northwest for its music and the event should be largely attended.

This is a pure tonic medicine of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. ## WOULD BUILD A CREAMERY HERE

### J. R. Armstrong, of St. Paul, has been in City for Two Days Looking for Location

### MUCH PLEASED WITH PROSPECTS

### And Returned to St. Paul This Af- ternoon to Talk Over Matters with Promoters

J. R. Armstrong, of St. Paul, has been in the city for two or three days looking over the ground with a view of building a creamery in this city on a large scale. He was introduced to several of the business men in the city and was shown several different locations. He is very much pleased with the outlook here and says that in all probability he will decide to locate here.

Mr. Armstrong is no novice in the business, but has conducted a line of successful creameries in different parts of the state. It is proposed to build a creamery here of very large dimensions and make this the headquarters for a territory including most of northern Minnesota.

The gentleman returned to St. Paul this afternoon but will be back in Brainerd again in a day or two.

It's folly to suffer from that horrible plague of the night, itching piles. Doan's Ointment cures, quickly and permanently. At any drug store, 50 cents.

### WERE BURNED OUT

### The General Store of Brummund & Kullander at Onigum Destroyed by Fire.

Word was received in the city yesterday that the general store of Brummund & Kullander at Onigum on the Leech lake Indian reservation was destroyed by fire at an early hour on Thursday morning.

The entire stock of merchandise was consumed and the loss is estimated at from \$4,000 to \$6,000. The firm carried \$3,200 insurance. Mr. Brummund is well known in Brainerd.

Brun's the optician will be at the National Hotel, Brainerd, Wednesday and Thursday, February 22 and 23. Eyes examined free.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. H. P. Dunn & Co.

## MUSIC AND DRAMA.

DANIEL SULLY.

When Daniel Sully produced "The Parish Priest" he identified himself with a clerical character and it is doubtful if the American public will ever accept him in another role; it is one of the penalties of success and he has been compelled to bow to the inevitable. He has been fortunate in securing a play in which he appears as a priest and which combines all the elements of a successful production; in "Our Pastor," a three act comedy drama by Jerrold Shepard, Mr. Sully is seen in the role of Father Daly. Dramatically the play is the strongest Mr. Sully has ever presented, although the element of humor is so predominant that it might be classed as a comedy; it will be seen in Brainerd on Wednesday evening, Feb. 8.

LONDON BIOSCOPE COMPANY.

The London Bioscope company will be at the Brainerd opera house to make wonder and marvel on Thursday and Friday evenings, Feb. 9 and 10. The bioscope they carry is the finest in this country and shows a collection of animated views seldom equalled in any country. The company was here last year and made a big hit. The prices will range from 25 to 50 cents.

'Tisn't safe to be a day without Dr. Thomas' Electric Oil in the house. Never can tell what moment an accident is going to happen.

Chop suey will be served free tonight at the Ideal and Proprietor Larabee invites all gentlemen to call.

## It Cures Liquor Habit.

Orrine is the only perfectly successful cure for the liquor habit the world has ever known. It is better than institutes or sanitariums, because it is used at home and does not interfere with the daily work; better than will-power, because it never fails. It strengthens the nerves and gives good appetite, regulates digestion and makes you sleep like a child.

Orrine No. 1 will cure the hardest drinker and destroy his craving for drink without his knowledge, as it can be given secretly in tea, coffee or food. Orrine No. 2, in pill form, is for those who wish to be cured. The cost of either is \$1 per box. Orrine has the endorsement of ministers, physicians and prominent members of the W. C. T. U. It is the one remedy for the liquor habit that can be relied upon to cure at little expense and restore the drunkard to perfect vigor of manhood. Write to the Orrine Company, Inc., Washington, D. C., for book on "Drunkennes," sent free in plain envelope. Call on H. P. Dunn & Co., Central Drug Store, National Bank Block, Brainerd, Minn.

# PROGRESSIVE SPIRIT OF THE BUSINESS MEN

## A Commercial Club Successfully Launched at Meeting Held Last Night

### SEVENTY-FIVE JOIN FIRST NIGHT

### Sixteen Directors Are Elected and the Club Starts Off in a Flour- ishing Manner.

Never in the history of Brainerd has a more representative body of business and professional men gathered together than last night when something like 100 or 150 met in Arcade hall in the Columbian block to perfect the organization of a commercial club. Not only was the number of men who were present an indication that those who have the commercial and industrial interests of the city at heart are awakened with new aspirations and are willing to combine their efforts for the best good of the city, but the very flattering thing about the meeting was the fact that the keynote of success was harmony, and there seemed to be an expression from every corner which had the right ring; a unanimity of purpose, to advance the interests of Brainerd, was the sentiment and there is a feeling that it cannot but help result in all kinds of good for the city and the county.

A club was organized and was successfully launched and it will be known as "The Commercial Club of Brainerd." The new club is organized under and by virtue of Chapter 34, of the general statutes of Minnesota, 1894, and its objects are in common with clubs of a similar character in cities throughout the northwest, except that the requirements have been changed to meet the conditions here.

MAYOR O'BRIEN FIRES FIRST GUN.

It was shortly after 8 o'clock that Mayor Con. O'Brien called the assembly to order and with usual promptness drove at the point in a few brief but concise and plain words. He stated the purpose for which the meeting was called and contended that the objects of a club of this nature were most praiseworthy. He said that the old saw, "Necessity is the mother of invention" is applicable to Brainerd at this time in many ways. He called attention to the fact that the business men should stand by the products which are manufactured right here at home. The flour, for instance, made here is as good as is turned out in St. Cloud, Sauk Centre or any other town, and if the business men here stood by the two mills they would have enough business to compel them to run night and day to supply the demand. Then he called attention to taxation and the utter disregard of the business men to do anything to impede what he thought was a growing evil. Many other matters of importance were touched upon by Mr. O'Brien and he seemed to voice the sentiments of a large majority. He stated that the promoters had named a committee of gentlemen, selected from the best business circles of the city, to formulate or draw up a set of articles of incorporation and by-laws and called upon W. D. McKay to read them. Mr. McKay read the articles of incorporation first which set forth the objects of the organization. He stated that the committee in preparing these papers had followed such cities as Minneapolis, St. Paul, Fargo, Winona, Stillwater and Duluth, and had picked out what they thought was best in each one and had made them applicable to Brainerd.

PURPOSE OF THE CLUB.

The general purpose of the club shall be to encourage and promote the commercial and manufacturing interests of the city of Brainerd; to develop the jobbing and wholesale interests of the city; to encourage manufacturing within the city limits; to promote and maintain the principle of home trade; to advise and assist in municipal and civic improvements, and to foster and encourage through social intercourse a public spirit and feeling of loyalty to the city. Its plan of operation shall be to provide and maintain a suitable place for the meetings of its members, and to furnish therein such means to carry out the general purpose of the corporation as its members may deem suitable and necessary. Its place of location shall be in the city of Brainerd, Crow Wing county, Minnesota.

THE MEMBERSHIP.

The terms of admission to membership shall be the election by the board of directors, in the manner prescribed by the by-laws, of adult male citizens of the United States who reside in, or whose place of business is in the city of Brainerd, and the payment of a membership fee, the amount of which may be prescribed by the by-laws. The

amount of annual dues to be paid by each member shall be five dollars, to be paid at such time and in such manner as the board of directors shall designate.

THE OFFICERS.

The government of this corporation shall be vested in a board of sixteen directors, who shall be members of this corporation, and in such officers and committees as said board of directors may appoint and determine.

The officers shall hold office and conduct the affairs of this corporation until their successors shall be elected and qualified at the next succeeding annual meeting of this corporation.

The officers of the corporation shall be a president, vice president, secretary and treasurer, who shall hold office for the term of one year and until their successors are elected and qualified.

their officers in their clubs by first electing a board of directors then Brainerd should follow the example.

T. C. Blewitt thought that the members should consider the effect.

M. J. Reilly was in favor of allowing the directors to elect the officers.

J. M. Elder that it was no time to quibble; that the business men had met to devise means for the betterment of Brainerd and as long as the committee had followed other cities why not get in line. This is no time for experiment.

Finally on motion of J. N. Nevers the articles were adopted as read.

THE MEMBERSHIP FEE.

The by-laws as prepared by the committee provided for a membership fee of \$10. There was considerable discussion on this point also. James Cullen took the floor and took the stand that the \$10 fee was too much. Of course he admitted that he did not know what was to be done with the money etc.

A. T. Larson said that he knew enough of human nature to know that the average man who paid \$10 into such a club for membership would expect to get some individual gain therefrom and he advised lowering the fee.

J. F. McGinnis stated that he did not think that the business men of the city should be thus classed. The business men should get away from the individuality question and work collectively for the good of the city.

M. E. Ryan concurred in what Mr. McGinnis had to say.

T. C. Blewitt believed in getting a right start and thought \$10 was not a mite too much.

H. W. Linneman said that a great deal of work is to be done money is needed. He thought \$10 was all right and suggested a proviso that it be made \$5 later.

A. L. Hoffman wanted to know if they were going to have club rooms.

W. D. McKay stated that the committee considered the matter carefully

taken regarding the taking off of Nos. 5 and 6 and running the trains by the way of Staples. He said that if it was the sense of the club he would name G. D. LaBaron this committee. The appointment was on motion ratified.

A LETTER FROM MR. LUM

A communication was read from Attorney L. E. Lum full of advice to the business men and the best wishes of the gentleman. He believed that the business men should go after what they believed they are entitled to and congratulated them on the move taken to organize the club.

On motion a committee consisting of W. D. McKay, H. I. Cohen and M. E. Ryan was appointed to prepare the articles of incorporation and have them sent to the secretary of the state for recording.

A rising vote of thanks was extended to those who have been prominent in promoting the movement.

## AS A PARTY MEASURE

HOUSE REPUBLICANS IN CONFERENCE DECIDE ON THE ESCH-TOWNSEND BILL.

## VOTE TO OCCUR WEDNESDAY

NO AMENDMENT TO THE RAILROAD RATE MEASURE WILL BE ALLOWED.

Washington, Feb. 4.—The Republicans of the house of representatives in conference Friday afternoon adopted as a party measure the bill extending rate-making powers to the interstate commerce commission, as agreed upon by the committee on interstate and foreign commerce and known as the Esch-Townsend bill. The conference instructed the house committee on rules to bring in a rule providing for consideration of the measure beginning at 11 o'clock Tuesday morning next and continuing until 4 o'clock Wednesday, when a vote shall be taken. No amendments will be allowed to the bill, although the first vote is to be taken on the Davey bill, as the Democratic substitute for legislation on the railway rate subject.

The conference, which lasted three hours, developed opposition to the measure. The only test vote taken was on a motion to postpone the matter for a further conference next Tuesday. This was lost, 44 to 197. Efforts were made to amend the bill during the conference but all of these failed. Fault was found with the bill on the ground that it did not include regulation for the private car and terminal charges. The advocates of the bill contested these criticisms, claiming that authority was contained in the bill to correct the complained of evil.

The change of the meeting from a caucus, as the call stated, to a "conference" leaves members participating free to follow their own inclinations. It is understood that the opposition may organize with the purpose of joining the minority in the house in the vote on the rule prescribing the manner of considering the bill in the house. These plans, however, have not been actually and definitely decided on.

Opposed to Present Legislation. Messrs. Mahon and Sibley of Pennsylvania were conspicuous in their opposition to any legislation at this time, both contending that sufficient time had not been given to the consideration of the subject. Pennsylvania, Mr. Mahon said, was the state most affected and he thought that the millions of money involved in the proposed legislation should not be jeopardized by hasty legislation. Mr. Sibley expressed the opinion that the members of the committee which reported the bill were not themselves clear in their interpretation of it. Mr. Wagner, also of Pennsylvania, took a different attitude from that of his colleagues and said that he would support the proposed measure unless he was convinced that something better could be offered.

The speech that most impressed members was delivered by Mr. Payne of New York, the majority leader, who in answer to Mr. Mahon's allegations that the proposed bill would result in confiscation and great hardship said that the bill in its present shape did not provide for anything more than what was in the original interstate commerce act and which had stood for ten years, at the end of which time the railroads raised the question of the legality of the enforcement of the decisions of the commission as to rates, the courts sustaining the contention that there was no power vested in the commission to fix rates. In other words, he said, the very law now proposed was in effect for ten years and had operated to the satisfaction of the railroads.

## WOULD AMEND DINGLEY ACT.

Senator Hansbrough Desires Repeal of Wheat Drawback Provision.

Washington, Feb. 4.—Senator Hansbrough introduced Friday in the form of an amendment to the sundry civil bill a measure which, if adopted, would have the effect of repealing the drawback provision of the Dingley act in so far as it applies to wheat. The amendment has been referred to the committee on appropriations and when it comes up for consideration Senator Hansbrough will argue the necessity of its enactment on the ground that the general drawback provision of the Dingley act was not intended, by the framers of that measure, to apply to wheat, although under the recent decision of Attorney General Moody drawbacks will be allowed on imported wheat manufactured into flour in the absence of some congressional enactment.

Mrs. Duke Paroled. New York, Feb. 4.—Mrs. Brodie L. Duke was arraigned Friday in the Tombs police court charged with being a fugitive from justice in connection with the Texas indictment against her and was paroled in the custody of her counsel until Monday.

Belgian Miners on Strike. Mons, Belgium, Feb. 4.—About 14,000 coal miners struck during the day for higher wages. The national congress of miners will meet shortly to discuss a general strike.

## COLD HAMPERS ALL TRADE.

But the Prospects Are Bright for the Near Future.

New York, Feb. 4.—Bradstreet's weekly review of trade says widespread cold weather hampers trade in nearly all lines, thus retarding but not entirely checking the opening of spring distribution. Except in a few cases, however, notably transportation and mining, industry displays rather less than seasonable interference. Except in a few lines, especially cotton manufacturing, advance business has been placed with a free hand and the feeling is none the less strong that milder weather will usher in widespread activity in all lines.

While the situation may be said to savor rather of promise than performance, it is to be noted that the South, which has been and is suffering from the depression in cotton, shows a rather better tone this week, consistent with an advance in cotton prices and reports that the holding of cotton movement grows rather than lessens. The late freeze in Florida did much damage to the fruit and truck crop. Records of past movements confirm recent fairly optimistic reports. January clothing are the largest recorded in that month for, though falling behind a year ago, are ahead of December.

## BUTTERMAKERS END MEETING.

Sam Schilling of Iowa Elected President of National Association.

Mason City, Ia., Feb. 4.—The Iowa State Dairy and National Buttermakers' associations practically adjourned Friday night. The success of the meeting was greatly marred by the drunken orgies of Thursday in which Harry Norwood was cruelly assaulted and now lies very near death's door. Howard and W. S. Reynolds, brothers, of New York city, will answer in court Saturday for the crime.

The National Buttermakers' convention ended by naming Sam Schilling of Iowa as president, George Lind of Chicago, vice president; Cy Knight of Chicago, secretary-treasurer; A. W. Trow, Minneapolis, E. R. Burridge, Ohio, and R. J. Noyter, the executive committee.

## Younger Wants Full Pardon.

St. Paul, Feb. 4.—Thomas Coleman Younger, the noted Northfield raider, has applied to the state pardon board for a full pardon, claiming that his conditional pardon, which requires that he remain away from Minnesota, operates to his disadvantage in business transactions. The application was ignored.

## TELEGRAPHIC BREVITIES.

## BY JOINT RESOLUTION

MR. ZELCH FILES A PROTEST IN THE HOUSE AGAINST PROPOSED "DRAWBACK."

SAYS PLAN MAY BE DISASTROUS TO WHEAT AND FLOUR INTERESTS IN NORTHWEST.

St. Paul, Feb. 4.—In the house Friday John Zelch of Washington county offered a joint resolution, protesting against the proposed "drawback" on Canadian wheat.

Mr. Zelch characterized the scheme as one likely to be disastrous to the wheat and flour interests of Minnesota and the Northwest, and the resolution asks that Minnesota's representatives in congress do all in their power to prevent it.

The placing of the officers and employees of the dairy and food department on a civil service basis received another boost in the shape of a bill by Dr. De Laitre of Minneapolis. De Laitre's bill provides for an examining board and competitive examinations, but makes the details more specific. The board is to be composed of the commissioner, state superintendent of public instruction, the attorney general and one member to be named by the governor for a term of five years. The latter is to be a kind of secretary and is to receive \$5 a day when he works. Examinations are provided for biennially after 1907, and those who participate must have 75 per cent or better to their credit to be eligible for appointment.

## May Be Removed for Cause.

Employees may be removed for cause, though the same must be in writing and agreed to by the board. Persons under twenty-one years are not eligible to participate in the examinations. The commissioner and chemist are the only officers and employees exempt from the operations of the proposed competitive examination.

Wholesale and retail dealers in oleomargarine and other forms of imitation butter will have to submit to a heavy license, if the bill proposed by Burdett Thayer becomes a law. For wholesalers a license fee of \$480 a year is fixed, and for retailers \$48 a year. The license cannot be taken out for less than one year and it must be conspicuously displayed where the goods are sold.

P. A. Gandrud of Kandiyohi county introduced a bill to have all the railroad companies report immediately to the railroad and warehouse commission all wrecks suffered by them, together with a list of the injured and killed.

J. T. Mannix of Hennepin introduced a resolution, calling from committee and advancing to general orders, all bills not in conflict with existing legislation or the revised code, but it availed nothing. While in the midst of an explanation, notice of debate was given, and the resolution went over.

A numerously signed petition was received, asking that the governing board of the new girls' training school, if established, be composed of women. The Morley pardon bill was reported for indefinite postponement. The house adjourned to 2 o'clock Monday afternoon.

## SENATE HOLDS SHORT SESSION.

Disposes of Small Grist of Business and Adjourns to Tuesday.

The senate Friday disposed of a small grist of business, and adjourned to Tuesday morning, 11 o'clock. Senator Thorpe introduced a joint resolution, protesting against the ruling of Attorney General Moody, holding that drawbacks, or rebates, be allowed on exported flour made in part from Canadian wheat.

The ruling of the attorney general was in effect that rebates may be allowed in such cases, providing the customs officials can identify the foreign material and ascertain, to their satisfaction, from the books of accounts or otherwise, the quantity of the foreign material actually present in the completed article. This was the construction placed on section 30 of the Dingley tariff law by Mr. Moody. The resolution by Senator Thorpe emphatically protests against the allowance of rebates on the duties imposed, as also against any construction of the section mentioned that would classify wheat and flour as materials which could be identified.

If the ruling of the attorney general is upheld by the secretary of the treasury, then immediate legislation is demanded exempting wheat and flour from such drawbacks. By request, the resolution was laid over till next Tuesday.

Senator Collier introduced a resolution asking congress to repeal the bankruptcy act, which, it says, has served its purpose, and which is now being used by designing and dishonest debtors to escape just liabilities. It was referred to the judiciary committee.

Smith, W., proposed a bill amending section 36, chapter 175, of 1895, authorizing the organization of mutual creamery and other fire insurance companies. The bill provides for the organization of mutual grain dealers' fire insurance companies. Senator Brower submitted a bill which carries an appropriation of \$50,000 for the erection of a building to take the place of Lawrence hall, a part of the St. Cloud normal school destroyed by fire.

## PLEAD FOR MRS. KATE EDWARDS.

People All Over the Country Ask Pennypacker to Grant Reprieve.

Harrisburg, Pa., Feb. 4.—The reprieve by Governor Bell of Vermont of Mrs. Mary Rogers, who was to be hanged Friday, has brought to Governor Pennypacker telegrams from all over the country asking him to reprieve Mrs. Kate Edwards, who is under sentence of death in Reading on Feb. 15.

So far as the governor is concerned, the entire matter rests with the board of pardons, and that body will not meet until the day before that set for Mrs. Edwards' hanging. He has no authority to grant a pardon or commute a sentence, except upon the written recommendation of the board.

Cleveland, Feb. 4.—Mrs. Cassie L. Chadwick Friday refused to sign a petition to Governor Pennypacker of Pennsylvania to commute the sentence of Kate Edwards, convicted of the murder of her husband and sentenced to be hanged, to life imprisonment.

## RAILROAD EMPLOYEE KILLED.

Several Other Persons Injured in a Train Wreck.

Whitesboro, N. Y., Feb. 4.—One railroad employee was killed, one fatally hurt and several passengers were injured in a train wreck here early Saturday.

The boiler of the engine drawing train No. 23, westbound, from Boston and New York, exploded. The locomotive toppled over upon the east-bound track and just at that moment the Buffalo special, known as train No. 30, approached from the west, running at high speed.

The entire train was derailed when it struck the wrecked engine.

The cars, on leaving the track, rolled over a slight embankment and lay on their sides. All the passengers were hurled from their berths and many were severely bruised and cut. It is not believed that any person has been killed, with the exception of Fireman John Erennan on the westbound train. He met instant death, and his engineer, John Allen, was fatally injured.

## PASSENGER TRAIN DITCHED.

One Person Killed and More Than a Dozen Injured.

Findlay, O., Feb. 4.—Running at the rate of fifty miles an hour, a mile north of Belmore, Friday evening, the northbound Cincinnati, Hamilton and Dayton limited train was ditched from a cause not yet learned. Mrs. Florence Frazier of Sidney, O., was killed; Miss Garrett of Deshler, fatally injured and more than a dozen other persons hurt, including H. W. Preston of Milwaukee.

The dining and sleeping cars were hurled, shattered wrecks, forty feet to the east of the track, while the engine and other coaches remained practically on the rails. So tightly had Mrs. Frazier been wedged in the window of the dining car that it was necessary to cut the body loose.

## BY JOINT RESOLUTION

MR. ZELCH FILES A PROTEST IN THE HOUSE AGAINST PROPOSED "DRAWBACK."

SAYS PLAN MAY BE DISASTROUS TO WHEAT AND FLOUR INTERESTS IN NORTHWEST.

St. Paul, Feb. 4.—In the house Friday John Zelch of Washington county offered a joint resolution, protesting against the proposed "drawback" on Canadian wheat.

Mr. Zelch characterized the scheme as one likely to be disastrous to the wheat and flour interests of Minnesota and the Northwest, and the resolution asks that Minnesota's representatives in congress do all in their power to prevent it.

The placing of the officers and employees of the dairy and food department on a civil service basis received another boost in the shape of a bill by Dr. De Laitre of Minneapolis. De Laitre's bill provides for an examining board and competitive examinations, but makes the details more specific. The board is to be composed of the commissioner, state superintendent of public instruction, the attorney general and one member to be named by the governor for a term of five years. The latter is to be a kind of secretary and is to receive \$5 a day when he works. Examinations are provided for biennially after 1907, and those who participate must have 75 per cent or better to their credit to be eligible for appointment.

### May Be Removed for Cause.

Employees may be removed for cause, though the same must be in writing and agreed to by the board. Persons under twenty-one years are not eligible to participate in the examinations. The commissioner and chemist are the only officers and employees exempt from the operations of the proposed competitive examination.

Wholesale and retail dealers in oleomargarine and other forms of imitation butter will have to submit to a heavy license, if the bill proposed by Burdett Thayer becomes a law. For wholesalers a license fee of \$480 a year is fixed, and for retailers \$48 a year. The license cannot be taken out for less than one year and it must be conspicuously displayed where the goods are sold.

P. A. Gandrud of Kandiyohi county introduced a bill to have all the railroad companies report immediately to the railroad and warehouse commission all wrecks suffered by them, together with a list of the injured and killed.

J. T. Mannix of Hennepin introduced a resolution, calling from committee and advancing to general orders, all bills not in conflict with existing legislation or the revised code, but it availed nothing. While in the midst of an explanation, notice of debate was given, and the resolution went over.

A numerous signed petition was received, asking that the governing board of the new girls' training school, if established, be composed of women. The Morley pardon bill was reported for indefinite postponement.

The house adjourned to 2 o'clock Monday afternoon.

## SENATE HOLDS SHORT SESSION.

Disposes of Small Grist of Business and Adjourns to Tuesday.

The senate Friday disposed of a small grist of business, and adjourned to Tuesday morning, 11 o'clock.

Senator Thorpe introduced a joint resolution, protesting against the ruling of Attorney General Moody, holding that drawbacks, or rebates, be allowed on exported flour made in part from Canadian wheat.

The ruling of the attorney general was in effect that rebates may be allowed in such cases, providing the customs officials can identify the foreign material and ascertain, to their satisfaction, from the books of accounts or otherwise, the quantity of the foreign material actually present in the completed article. This was the construction placed on section 30 of the Dingley tariff law by Mr. Moody.

The resolution by Senator Thorpe emphatically protests against the allowance of rebates on the duties imposed, as also against any construction of the section mentioned that would classify wheat and flour as materials which could be identified.

If the ruling of the attorney general is upheld by the secretary of the treasury, then immediate legislation is demanded exempting wheat and flour from such drawbacks.

By request, the resolution was laid over till next Tuesday.

Senator Collier introduced a resolution asking congress to repeal the bankruptcy act, which, it says, has served its purpose, and which is now being used by designing and dishonest debtors to escape just liabilities. It was referred to the judiciary committee.

Smith, W., proposed a bill amending section 36, chapter 175, of 1895, authorizing the organization of mutual creamery and other fire insurance companies. The bill provides for the organization of mutual grain dealers' fire insurance companies.

Senator Brower submitted a bill which carries an appropriation of \$50,000 for the erection of a building to take the place of Lawrence hall, a part of the St. Cloud normal school destroyed by fire.

## PLEAD FOR MRS. KATE EDWARDS.

People All Over the Country Ask Pennypacker to Grant Reprieve.

Harrisburg, Pa., Feb. 4.—The reprieve by Governor Bell of Vermont of Mrs. Mary Rogers, who was to be hanged Friday, has brought to Governor Pennypacker telegrams from all over the country asking him to reprieve Mrs. Kate Edwards, who is under sentence of death in Reading on Feb. 19.

So far as the governor is concerned, the entire matter rests with the board of pardons, and that body will not meet until the day before that set for Mrs. Edwards' hanging. He has no authority to grant a pardon or commute a sentence, except upon the written recommendation of the board.

Cleveland, Feb. 4.—Mrs. Cassie L. Chadwick Friday refused to sign a petition to Governor Pennypacker of Pennsylvania to commute the sentence of Kate Edwards, convicted of the murder of her husband and sentenced to be hanged, to life imprisonment.

## RAILROAD EMPLOYEE KILLED.

Several Other Persons Injured in a Train Wreck.

Whitesboro, N. Y., Feb. 4.—One railroad employee was killed, one fatally hurt and several passengers were injured in a wreck on the New York Central road near here early Saturday.

The boiler of the engine drawing train No. 23, westbound, from Boston and New York, exploded. The locomotive toppled over upon the east-bound track and just at that moment the Buffalo special, known as train No. 30, approached from the west, running at high speed.

The entire train was derailed when it struck the wrecked engine.

The cars, on leaving the track, rolled over a slight embankment and lay on their sides. All the passengers were hurled from their berths and many were severely bruised and cut. It is not believed that any person has been killed, with the exception of Fireman John Brennan on the westbound train. He met instant death, and his engineer, John Allen, was fatally injured.

## PASSENGER TRAIN DITCHED.

One Person Killed and More Than a Dozen Injured.

Findlay, O., Feb. 4.—Running at the rate of fifty miles an hour, a mile north of Belmore, Friday evening, the northbound Cincinnati, Hamilton and Dayton limited train was ditched from a cause not yet learned. Mrs. Florence Frazier of Sidney, O., was killed; Miss Garrett of Deshler, fatally injured and more than a dozen other persons hurt, including H. W. Preston of Milwaukee.

The dining and sleeping cars were hurled, shattered wrecks, forty feet to the east of the track, while the engine and other coaches remained practically on the rails. So tightly had Mrs. Frazier been wedged in the window of the dining car that it was necessary to cut the body loose.

## AS A PARTY MEASURE

HOUSE REPUBLICANS IN CONFER-

ENCE DECIDE ON THE ESCH-

TOWNSEND BILL.

## VOTE TO OCCUR WEDNESDAY

NO AMENDMENT TO THE RAIL-

ROAD RATE MEASURE WILL

BE ALLOWED.

Washington, Feb. 4.—The Republicans of the house of representatives in conference Friday afternoon adopted as a party measure the bill extending rate-making powers to the interstate commerce commission, as agreed upon by the committee on interstate and foreign commerce and known as the Esch-Townsend bill. The conference instructed the house committee on rules to bring in a rule providing for consideration of the measure beginning at 11 o'clock Tuesday morning next and continuing until 4 o'clock Wednesday, when a vote shall be taken. No amendments will be allowed to the bill, although the first vote is to be taken on the Davey bill, as the Democratic substitute for legislation on the railway rate subject.

The conference, which lasted three hours, developed opposition to the measure. The only test vote taken was on a motion to postpone the matter for a further conference next Tuesday. This was lost, 44 to 107. Efforts were made to amend the bill during the conference but all of these failed. Fault was found with the bill on the ground that it did not include regulation for the private car and terminal charges. The advocates of the bill contested these criticisms, claiming that authority was contained in the bill to correct the complained of evil.

The change of the meeting from a caucus, as the call stated, to a "conference" leaves members participating free to follow their own inclinations. It is understood that the opposition may organize with the purpose of joining the minority in the house in the vote on the rule prescribing the manner of considering the bill in the house. These plans, however, have not been actually and definitely decided on.

Opposed to Present Legislation.

Messrs. Mahon and Sibley of Pennsylvania were conspicuous in their opposition to any legislation at this time, both contending that sufficient time had not been given to the consideration of the subject. Pennsylvania, Mr. Mahon said, was the state most affected and he thought that the millions of money involved in the proposed legislation should not be jeopardized by hasty legislation. Mr. Sibley expressed the opinion that the members of the committee which reported the bill were not themselves clear in their interpretation of it. Mr. Wagner, also of Pennsylvania, took a different attitude from that of his colleagues and said that he would support the proposed measure unless he was convinced that something better could be offered.

The speech that most impressed members was delivered by Mr. Payne of New York, the majority leader, who in answer to Mr. Mahon's allegations that the proposed bill would result in confiscation and great hardship said that the bill in its present shape did not provide for anything more than what was in the original interstate commerce act and which had stood for ten years, at the end of which time the railroads raised the question of the legality of the enforcement of the decisions of the commission as to rates, the courts sustaining the contention that there was no power vested in the commission to fix rates. In other words, he said, the very law now proposed was in effect for ten years and had operated to the satisfaction of the railroads.

WOULD AMEND DINGLEY ACT.

Senator Hansbrough Desires Repeal of Wheat Drawback Provision.

Washington, Feb. 4.—Senator Hansbrough introduced Friday in the form of an amendment to the sundry civil bill a measure which, if adopted, would have the effect of repealing the drawback provision of the Dingley act in so far as it applies to wheat. The amendment has been referred to the committee on appropriations and when it comes up for consideration Senator Hansbrough will argue the necessity of its enactment on the ground that the general drawback provision of the Dingley act was not intended, by the framers of that measure, to apply to wheat, although under the recent decision of Attorney General Moody drawbacks will be allowed on imported wheat manufactured into flour in the absence of some congressional enactment.

Mrs. Duke Paroled.

New York, Feb. 4.—Mrs. Brodie L. Duke was arraigned Friday in the Tombs police court charged with being a fugitive from justice in connection with the Texas indictment against her and was paroled in the custody of her counsel until Monday.

Belgian Miners on Strike.

Mons, Belgium, Feb. 4.—About 14,000 coal miners struck during the day for higher wages. The national congress of miners will meet shortly to discuss a general strike.

## COLD HAMPER ALL TRADE.

But the Prospects Are Bright for the Near Future.

New York, Feb. 4.—Bradstreet's weekly review of trade says widespread cold weather hampered trade in nearly all lines, thus retarding but not entirely checking the opening of spring distribution. Except in a few cases, however, notably transportation and mining, industry displays rather less than seasonal interference. Except in a few lines, especially cotton manufacturing, advance business has been placed with a free hand and the feeling is none the less strong that milder weather will usher in widespread activity in all lines.

While the situation may be said to favor rather of promise than performance, it is to be noted that the South, which has been and is suffering from the depression in cotton, shows a rather better tone this week, consistent with an advance in cotton prices and reports that the holding of cotton movement grows rather than lessens. The late freeze in Florida did much damage to the fruit and truck crop. Records of past movements confirm recent fairly optimistic reports. January clothing is the largest recorded in that month for, though falling behind a year ago, are ahead of December.

## BUTTERMAKERS END MEETING.

Sam Schilling of Iowa Elected President of National Association.

Mason City, Ia., Feb. 4.—The Iowa State Dairy and National Buttermakers' associations practically adjourned Friday night. The success of the meeting was greatly marred by the drunken orgies of Thursday in which Harry Norwood was cruelly assaulted and now lies very near death's door. Howard and W. S. Reynolds, brothers, of New York city, will answer in court Saturday for the crime.

The National Buttermakers complimented Iowa by naming Sam Schilling their president, George Lind of Chicago, vice president; Cy Knight of Chicago, secretary-treasurer; A. W. Trow, Minnesota, E. R. Burridge, Ohio, and R. J. Noyter, the executive committee.

Younger Wants Full Pardon.

St. Paul, Feb. 4.—Thomas Coleman Younger, the noted Northfield raider, has applied to the state pardon board for a full pardon, claiming that his conditional pardon, which requires that his conduct be exemplary and that he remain away from Minnesota, operates to his disadvantage in business transactions. The application was ignored.

## TELEGRAPHIC BRIEVITIES.

The general cold wave probably reached its southernmost boundary Friday and spread a blanket of sleet and snow over the Central South.

To escape arrest Joseph Kingcade, a Chicago ticket broker, threw himself in front of a Rock Island suburban train and was instantly killed.

Andrew Carnegie has given Rennselaer Polytechnic institute of New York, \$125,000 to assist in rebuilding its main building, which was burned last July.

Caught between two coaches and unable to extricate himself, Olaf Mortensen, a car inspector for the Minneapolis and St. Louis road, was slowly crushed to death Friday night at St. Paul.

## SENATE HOLDS SHORT SESSION.

Disposes of Small Grist of Business and Adjourns to Tuesday.

The senate Friday disposed of a small grist of business, and adjourned to Tuesday morning, 11 o'clock.

Senator Thorpe introduced a joint resolution, protesting against the ruling of Attorney General Moody, holding that drawbacks, or rebates, be allowed on exported flour made in part from Canadian wheat.

The ruling of the attorney general was in effect that rebates may be allowed in such cases, providing the customs officials can identify the foreign material and ascertain, to their satisfaction, from the books of accounts or otherwise, the quantity of the foreign material actually present in the completed article. This was the construction placed on section 30 of the Dingley tariff law by Mr. Moody. The resolution by Senator Thorpe emphatically protests against the allowance of rebates on the duties imposed, as also against any construction of the section mentioned that would classify wheat and flour as materials which could be identified. If the ruling of the attorney general is upheld by the secretary of the treasury, then immediate legislation is demanded exempting wheat and flour from such drawbacks.

By request, the resolution was laid over till next Tuesday.

Senator Collier introduced a resolution asking congress to repeal the bankruptcy act, which, it says, has served its purpose, and which is now being used by designing and dishonest debtors to escape just liabilities. It was referred to the judiciary committee.

Smith, W. proposed a bill amending section 36, chapter 175, of 1895, authorizing the organization of mutual creamery and other fire insurance companies. The bill provides for the organization of mutual grain dealers' fire insurance companies. Senator Brower submitted a bill which carries an appropriation of \$50,000 for the erection of a building to take the place of Lawrence hall, a part of the St. Cloud normal school destroyed by fire.

## PLEAD FOR MRS. KATE EDWARDS.

People All Over the Country Ask Pennypacker to Grant Reprieve.

Harrisburg, Pa., Feb. 4.—The reprieve by Governor Bell of Vermont of Mrs. Mary Rogers, who was to be hanged Friday, has brought to Governor Pennypacker telegrams from all over the country asking him to reprieve Mrs. Kate Edwards, who is under sentence of death in Reading on Feb. 15.

So far as the governor is concerned, the entire matter rests with the board of pardons, and that body will not meet until the day before that set for Mrs. Edwards' hanging. He has no authority to grant a pardon or commute a sentence, except upon the written recommendation of the board.

Cleveland, Feb. 4.—Mrs. Cassie L. Chadwick Friday refused to sign a petition to Governor Pennypacker of Pennsylvania to commute the sentence of Kate Edwards, convicted of the murder of her husband and sentenced to be hanged, to life imprisonment.

## RAILROAD EMPLOYEE KILLED.

Several Other Persons Injured in a Train Wreck.

Whitesboro, N. Y., Feb. 4.—One railroad employee was killed, one fatally hurt and several passengers were injured in a wreck on the New York Central road near here early Saturday.

The boiler of the engine drawing train No. 23, westbound, from Boston and New York, exploded. The locomotive toppled over upon the east-bound track and just at that moment the Buffalo special, known as train No. 30, approached from the west, running at high speed.

The entire train was derailed when it struck the wrecked engine.

The cars, on leaving the track, rolled over a slight embankment and lay on their sides. All the passengers were hurled from their berths and many were severely bruised and cut. It is not believed that any person has been killed, with the exception of fireman John Brennan on the westbound train. He met instant death, and his engineer, John Allen, was fatally injured.

## PASSENGER TRAIN DITCHED.

One Person Killed and More Than a Dozen Injured.

Findlay, O., Feb. 4.—Running at the rate of fifty miles an hour, a mile north of Belmore, Friday evening, the northbound Cincinnati, Hamilton and Dayton limited train was ditched from a cause not yet learned. Mrs. Florence Frazier of Sidney, O., was killed; Miss Garrett of Deshler, fatally injured and more than a dozen other persons hurt, including H. W. Preston of Milwaukee.

The dining and sleeping cars were hurled, shattered wrecks, forty feet to the east of the track, while the engine and other coaches remained practically on the rails. So tightly had Mrs. Frazier been wedged in the window of the dining car that it was necessary to cut the body loose.
